## Troll Ambush

Kill 1 and escape  
back to mining camp.  
We take a short rest  
and then separate from  
Mercs, and head our  
own way into the forest.

After a day or two we were  
toward where the tower is...

The tower sits on a hill  
and we observe for awhile

upon touching the stone

And then continue on to the grove  
two more days we are  
converging upon the center

We hear sound of some type  
of conflict & growling...

We see admirably lumberjacks sawing  
at an ancient oak within a  
crde...

A Large bear is menacing the Lumberjacks  
and suddenly 3 more bears charge  
into the fight...

We play neutral  
and avoid getting  
involved in the fight...

At a sacred seeming grave  
with trees & standing stones...
